

## OUTREACH PROGRAMS

Make some waves at school with a visit from Shedd! Our assembly-sized auditorium programs and our new single-class module programs show how exciting aquatic science can be. Bringing Shedd to your school is a great way to enhance a science unit or to prepare students for an upcoming field trip to the aquarium.

All programs are aligned with Illinois state science standards 11, 12 and 13.

### New! Module program

30 MINUTES  
UP TO 40 STUDENTS PER PROGRAM  
\$50 FOR EACH PROGRAM  
UP TO SIX PROGRAMS PER VISIT  
OFFERED MON. – FRI.

#### K–2

##### Amazon: River House Challenge

In this memorable hands-on program, Shedd staff members lead students in constructing a South American river house, then they simulate the floods of the high-water season. The group size and program length are perfect for keeping younger children engaged. Book more than one to include all your school's K–2 students.

### Auditorium programs

50 MINUTES  
CLASS SIZES 75 – 250, \$250 PER PROGRAM  
UP TO THREE PROGRAMS PER VISIT  
OFFERED MON. – FRI.

\*Mileage fees apply

#### K–2

##### Whales: Living Large

Meet a beluga whale who was born and raised at Shedd, and see how scientists care for these big white wonders. Practice age-appropriate skills like observation, comparison and measuring.

#### 3–5

##### Shark Encounter!

Think you know sharks? Think again! With specimens and video footage of more than 10 different shark species, plus activities focused on prediction and observation, students are sure to expand their ideas about these extraordinary creatures.

#### 3–5

##### Amazon: Raised on the River

A one-of-a-kind experience! With help from genuine rain forest adventurers, Shedd educators will introduce you to some of the animals and people who call the Amazon home. Your students will draw on their problem-solving and math skills to construct an actual river house just in time for the flood season.
